Advice.

Advice, to do any real good, must be desired and sought for. When it is volunteered it is usually thrown away, and possibly may deserve no better fate. But when the need of it is felt, when it is invited and solicited, it at least stands a chance of being examined, and, if approved of, being followed. This is seen to the full extent when we carry our financial difficulties to our lawyer and our physical woes to our physician. Then we sincerely desire their counsel, we request it, we pay liberally for it, we follow it. And this is because we have confidence in the ability of these professional men to give good advice in their respective lines in our hour of need.

John Cammerman, aged ninety-three years, who claims to be the oldest inhabitant of Maryville, Mo., has undertaken to wheel a barrow containing one hundred bricks from that town to Kansas City, a distance of ninety miles in five days. He started out on Monday and covered twenty-one miles in the first twenty-four hours. On Wednesday evening, when last heard from, he was nineteen miles nearer to the goal, and asserted that he had a "walk-over," the journey was undertaken to win a wager.

An agent is at London, Ky., buying mules for a Louisville firm which has a contract to furnish 4,000 to Great Britain for the South African war.

There seems to be a gloom over the late election. While the result hangs in the balances, if the democrats are beaten, we can lay the blame to that traitor J. Y. Brown. Sand Cutter.

The Skunk and the Lion.

A skunk once chalanged a lion to single combat. The lion promptly refused. "Hew," said the skunk, "are you afraid?" "Very much so," said the lion; "for you would only gain fame for having the honor to fight with a lion, while every one who met me for a month would know I had been in company with a skunk."

This reminds us of a story about Henry Ward Beecher's father, the famous Rev. Dr. Lyman Beecher, who, when asked why he did not reply to somebody who had severely attacked him in a newspaper once, replied, that when a young man, crossing a

field one night with an armful of books, he saw a small animal, and after hurling several volumes at the animal, found he got the worst end of it, and ever since had thought it better to let such animals alone.—Ex.

The war demand for mules has raised their price so that the best mules now sell at from \$150 to \$200. The United States government has purchased sixteen thousand at an average price of about \$100 each. If the mules could vote it would not be for war. Strange some people haven't got mule sense.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of Pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand medicine. For sale by J. W. Dawson & Bro., Druggists.

Washington is preparing to celebrate the Capital's Centennial next year in a manner to reflect credit on both the city and the nation. It is proposed to give the event a national scope and significance by the participation of all the states in the ceremonies. And with this end in view, the President announced the appointment of a committee, including the Governors of all the States to act in connection with the Senate and the House in the matter. \$10,000 has been set apart by Congress to defray the actual expenses of the members of the committee. It seems appropriate that there should be this formal celebration of the centennial anniversary of the establishment of the seat of the National government in Washington and the prospects for an elaborate observance are bright.

Used by British Soldiers in Africa. Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Ghalib. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial." A friend in need is a friend indeed. That is exactly what Chamberlain's Cough Remedy is. It is the mother's help when she is suddenly awakened in the night by the ominous husky cough, and labored breathing, of her babe. It is the safe resort of the youth or adult when he has "caught cold" and there is coughing and irritation of the mucous membrane of the throat. It allays the irritation and cures the cold. For sale by J. W. Dawson & Bro., Druggists.

Chamberlain's Pain Balm. Cures Others, Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. YOUNG GIRLS RESTORED TO HEALTH.

My daughter was suffering with great bearing down pains and backache during her monthly periods. She had violent nervous spells which produced a peculiar quivering and jerking sensation. She used G. F. P. and all pains were removed and the jerking was stopped. She thinks your Panacea is the best medicine in the world. I think it is the best I ever saw for young girls.

A Father's Influence.

A lady, a godly woman, had a profane husband. She had a boy, who was the light of her eyes, the pride of her heart. One day she heard him swear. She said to him, with her heart breaking: "My boy, you said a very naughty word; and you must ask God to forgive you." Well, he was obedient to his mother; but he was a little sulky at the idea of confession. She followed him to his room, and he knelt down and said in a very sulky tone: "O God, I'm sorry I said that naughty word; and I hope you'll forgive me; and I guess you will. But I want you to hurry me up, and grow me up a man quick, so as I can swear as my father does; and then you wouldn't care about my swearing."—Ex.

Defective flues are responsible for over 11 per cent. of the fires and incendiarism is next as a cause. Last year 6,891 incendiary fires occurred. Lightning caused 3,479, spontaneous combustion 1,174, friction in machinery 295, natural 91, dust explosion 14, and five were caused by the sun's rays passing through window glass.

A scientist of some standing asserts that chemically pure water is poison to the human stomach, upsetting some hitherto accepted theories regarding distilled water by the argument that in distillation the water loses sundry salts that it greedily abstracts from the animal tissues when it is swallowed, thus constituting a protoplasmic poison.

The Farm Journal is unlike any other paper; for one thing it prints no quick medical advertisements; for another it takes five years subscriptions and gets the paper to its subscribers the full time if they are anywhere on this planet, even if they move two or three times; if they die their heirs get it. Now we are going to send the Farm Journal for the balance of 1899, and all of 1900, 1901, 1902 and 1903, nearly five years, to every advance-paying subscriber to the Times, but better, speak quick, as we have only a limited number Farm Journals to offer on these terms.

They claim that patents can now be procured in less than half the time formerly required.

ARE YOU A DEMOCRAT?

An old adage reads: "There is a place for everything," and for everything to be in its place, the LOUISVILLE DISPATCH should find a place in the home of every DEMOCRAT in the SUNNY SOUTH. The Dispatch is the people's paper, owned by the people, and is always ready to fight for the cause of the people. IT STANDS SQUARELY ON THE CHICAGO PLATFORM, without the aid or consent of the Gold Bug Monopolies, and a fair comparison of its news service (now being furnished over leased wires by the New York Sun, the Chicago Inter Ocean and the Northern Press Association) with that of any other paper, will fully verify its motto, "If you see it in the Dispatch it's so, and if it's so it is always in the Dispatch."

The Dispatch also has a staff of over 300 active correspondents in the South, and will POSITIVELY GUARANTEE MORE THAN DOUBLE THE SOUTHERN NEWS of any other Louisville paper. Get the Dispatch; it gives the news and tells the truth about it.

Daily, 8 pages; Sunday, 24 pages; Weekly, 8 pages. We club with the Weekly Dispatch at the remarkably low price of
